Co-Host and Local Committee

Komunitas openSUSE Indonesia in collaboration with **Fakultas Sains dan Teknologi UIN Sunan Kalijaga** and **Kelompok Studi Linux (KSL) Kusuka** organized an international conference in information technology, openSUSE Asia Summit 2016, Friday - Sunday in 30 Sept-2 Oct 2016 at Convention Hall UIN Sunan Kalijaga Yogyakarta. openSUSE.Asia Summit are 2 days event, hosted in different city each year talking about openSUSE and opensource related topics. The event categorized into public conference, workshop/class parallel and hackfest. Attendees will get latest information from board foundation, contributor, user, learn best practices, testimony, show latest project and progress, also learn how to implement openSUSE in many ways.

In previous years openSUSE.Asia Summit has been held in Beijing, China in 2014 and National Taipei University of Education, Taipei / Taiwan, Republic Of China 2015. openSUSE.Asia Summit 2015 attracted more than 300, users, developers, business professionals, media, students and government officials, including 32 speakers from all over the world.

Preparation Work

Date: 2015 - December - 6th ~ 2016 - September 29th

<https://events.opensuse.org/conference/summitasia16>

The screenshot shows the Mozilla Firefox browser displaying the openSUSE.Asia Summit 2016 website. The title bar reads "openSUSE.Asia Summit 2016 - Mozilla Firefox". The main content area features a green and blue geometric background. In the center, there is a logo for "openSUSE Asia Summit 2016" featuring a stylized white cloud-like shape. To the right of the logo, the text "openSUSE.Asia Summit 2016" is displayed, along with "Daerah Istimewa Yogyakarta / Indonesia" and the dates "September 30 - October 02, 2016". Below this, a paragraph describes the summit's purpose and location, followed by a link "Registration is open!!". The bottom right corner of the page has a language selection dropdown set to "English".

The screenshot shows the Mozilla Firefox browser displaying the "Program" section of the openSUSE.Asia Summit 2016 website. The title bar reads "openSUSE.Asia Summit 2016 - Mozilla Firefox". The main content area is titled "Program" and contains the text "summitasia16 has the most awesome program ever! See rock-star speakers cover the topics of". Below this, there are four categories: "openSUSE", "FOSS", "Community", and "Workshop". A "Full Schedule" button is located at the bottom left of this section. The "Workshop" section is expanded, showing a list of workshops with brief descriptions and "Read More" links. One workshop listed is "Integrating openSUSE Ceph Block Device and OpenStack", which discusses the integration of Ceph Storage Cluster with OpenStack services like Glance and Cinder. Another workshop listed is "openQA hands-on with openSUSE Leap 42.1", which provides an introduction to openQA and its features. The bottom right corner of the page has a language selection dropdown set to "English".

3. Fans Page openSUSE Asia Summit 2016

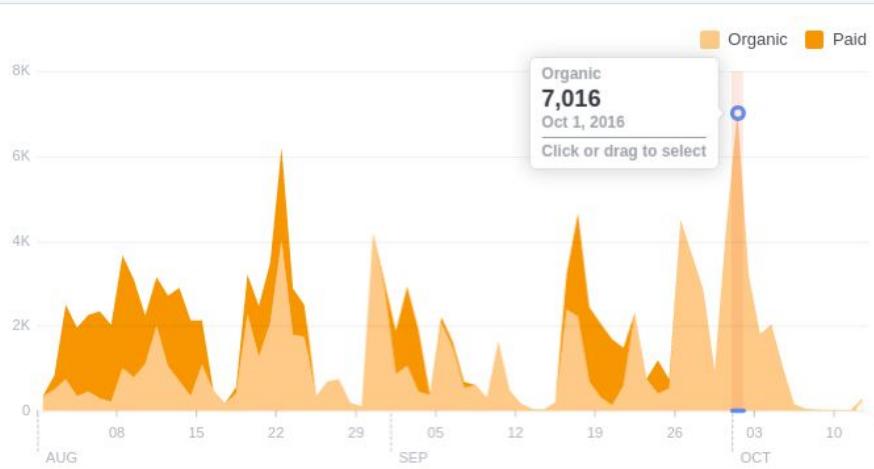

<https://www.facebook.com/opensuseasiasummit2016/>

The screenshot shows the official Facebook page for the openSUSE.Asia Summit 2016. The cover photo features the green openSUSE logo overlaid on a photograph of the Prambanan temple complex in Yogyakarta, Indonesia. The page header includes the page name 'openSUSE.Asia Summit 2016' and the location 'Yogyakarta, Oct 1-2'. A sidebar on the left lists navigation options: Home, About, Photos, Events, Likes, Posts, and a prominent 'Create a Page' button. The main content area shows a post from October 4 at 8:16am from the page itself, which reads 'Terima kasih, Thank You, 謝謝, ありがとう, 多謝'. Below the post is a large group photo of many attendees at the summit, many wearing green shirts and holding up their hands. To the right of the post are sections for 'Community' (with a search bar), 'ABOUT' (describing the summit as a regional conference in Indonesia), and 'PHOTOS' (showing smaller images of the event). A 'Sign Up' button is visible in the top right corner.
